

- May 4th et 5th -
Brand new edition!

Regarding the quantity of present novelties this year to the program of the Classic Days, we can consider that there is much **more than new in this 6th edition**. All the ingredients, which made it a success, will of course be there : driving sessions, parade, tourist rally, clubs, trade village, atmosphère, friendliness...

Nevertheless, the staff has worked hard to set up animations which enrich more the offer of discovery. This offer concerns all the generations, all the sectors and take the most diverse forms.

Two great themes will be celebrated in 2013

One will be the **fiftieth anniversary of Lamborghini**, with an exhibition dedicated to the brand of Sant'Agata. From the beginnings to nowadays, an exceptional range of the produced models will be présent to celebrate with dignity this birthday.

The other theme returns us a few years before : during the Martini's and the Ligier's years, and the birth of a great driver on the Magny-Cours circuit. Brilliant, charming, charismatic, talented and especially human. For the two days, our friend **Jacques Laffite** will be close to enthusiasts : sessions of dedications, photos, first lap with him, public conversation livened up by Pierre-François Rousselot...

Schlumpf Collection invests Classic Days

No more preconceived, dusty ideas saying that museums are immovable citadels. The famous museum of Mulhouse is alive ! Cars in working order, but above all cars wich drive ! Stronger with this new partnership, Classic Days will welcome every year a pearl of this temple of the automobile.

The vehicle remains still secret. A big bare operation is going to be launched, with **first lap on board to win**. A very moving moment and an intense pleasure of discovery.

The Parade becomes charitable on Sunday

A big change for the next session of Classic Days. The now famous Parade Autosur Classic will took take place on Sunday, at the end of morning. Yhe counting of cars, for the pleasure, is now on for a good cause : **10 € will be put back to an association for every present car**.

Children kings of Old car

Our dear toddlers reign as masters at home and over Classic Days :

- **ACO Ferrari P4** will be there again for the driving initiation
- It is also the birth of the **Classic Car Toon** : an old car at the disposal of the children to let them personalize it ! The bodywork's Picassos !
- But also sculptures of balloons, make-ups, inflatable games...

On ground and in the sky with the Ferté Alais Meeting

Automobiles and planes always had a mutual strong attraction. The link between Classic Days and the Ferté Alais Meeting was thus natural. **Exhibition and flying over the site by some marvels of the aviation.** So much memories and strong feelings...

Clubs make their cinema for Classic Days

Every club advances a car présent in a movie and emphasizes it on Classic Days. A highly selected jury will determine a podium wich will be rewarded. Tresury of imagination and creativity to find the precious car between the members and make it a star.

The Pre-war Village

A special attention to our pioneers of automobile : a structure will have risen in the center of the circuit to reconstitute a real village with a **unique friendliness** ! The most beautiful cars of the beginning of the century will be gathered. An exceptional charm, wich seduces everybody.

And still more games opened to all for two days, through the whole site.

For all the tastes, for all the, for all the envy, Classic Day sis the gathering of historic cars for all, with all and in all. Each finds itself there. Each can appropriate them.

Classic Days remains Classic Days...

... But for 2013 Classic Days goes out of Lecoq.

The problem now : wait until May 4th !
