

- 3rd & 4th of May, 2014 -
New edition, new emotions !

If 2013 was the year of all the records, 2014 is necessarily the year of all the challenges : to propose a contents at least so rich and entertaining as last year, to obtain more traffic (subscribers and spectators), to arouse so much enthusiasm... And with the success of the previous edition, the goal is not easy to reach.

Never mind, the organization of Classic Days likes the challenges and has prepared a **7th edition with a more livened up and richer program!** Sessions of driving on track, parade, tourist rally, clubs, trade village and conviviality will always be the cement of the event which will also propose **numerous new animations** capitalizing on the success of the last year. Specialists or beginners, adults or kids, all will necessarily find what they are looking for there!

Jean-Pierre Beltoise honored

There are illustrious personalities whose name will remain for ever engraved in the French motor sports history. Multifaceted brave driver having become famous in numerous disciplines, in particular on the circuit of Magny-Cours, **Jean-Pierre Beltoise** will honor us with being present in Classic Days. Sessions of dedications, public discussion and photography sessions, will give the opportunity to the enthusiasts to be close and to exchange with this big sir during two days.

50 years of a myth: Ford Mustang

Ford Mustang blows in 2014 his fifty candles. To celebrate the birthday of this born mythical model across the Atlantic at the beginning of the 60s, a space will be dedicated to it and an exceptional concentration of vehicles is expected thanks to the support of clubs.

30 years of the French GT : Venturi

Classic Days will also celebrate the **30 years old of Venturi**. The famous brand wich gave the first French definition of the GT will see itself put forward thanks to the mobilization of the club Venturi.

The Parade Autosur Classic for the good cause

Strong moment of Classic Days, the big Sunday parade allies since 2013 pleasure and altruism for a very good reason : **10 € by participating car will be put back in the ICM** (Institut du cerveau et la Moelle épinière). Useless thus to look for the motivation to beat the record of 577 cars on track!

Clubs and Comic strips

After the theme of the cinema, it is around the comics that will compete all the clubs which wish it. The principle is simple : every club puts forward a car seen in a comic strip and stages it during Classic Days. A "Highly qualified" jury will determine a podium which will be rewarded. Creativity and originality will be warmly welcomed, the opportunity for some to find again their child's soul.

The head in the sky with Le Temps des Hélice of la Ferté Alais

Classic Days rises thanks to l'Amicale Jean Baptiste Salis. **Exhibition of ancient planes and acrobatics** are from now on for the program to offer the height of sensations and memories throughout the weekend!

The children at first!

It became a habit in Classic Days : the children are kings! The activities abound, our dear toddlers will not know which way to turn any more:

- **Classic Car Toon** : an old car and cans of paint at the disposal of children... Their creative talent makes the rest... the Estafette of 2013 still remembers it!
- the **ACO Ferrari P4** will always be present to introduce the youngest to the driving
- But also many of other activities: inflatable games, make-ups, sculptures of balloon, wooden huge games...

The Pre-war car village

To stroll in the middle of the most beautiful mechanics of the beginning of the last century in a unique friendly atmosphere, such is the concept of the village Pre-war year! This year still, a structure will have risen within the site and will allow all to be as closely as possible to these superstars.

The weekend will be also topped off by other numerous animations for the most great pleasure of all : a **photo studio** will suggest you being immortalized beside your beautiful old partner(car) in an original frame, a **huge competition game** open to all will be organized on the site but also many of the other surprises...

A mythical place, animations and activities for all, passion, an unique atmosphere... **The best resolution to be taken for 2014 is to go to the Classic Days!**

See you on next 3rd and 4th of May !
